

CAROLUS XIII

ROYO Y IMPERAD

A.S. 314

FEBRUARY, 2024

No.2 of 2024

**An Act Reforming and Reinforcing the Security Standards
of the New Sarovian Empire**

Assented to on the X of X, 2024

SARHOLM, 2024

BE IT ENACTED, by the Office of the Prime Minister of the New Sarovian Empire and Her Colonies and Dominions, with the advice and consent of the Imperial Parliament thereof, as follows:

Introduction

1. The Imperial Parliament,

Acknowledging that the Declaratory Act 2023 has done a good job with formalizing the security standards of Sarovia,

Noting, however, that since the passing of this Act, treason has continued to be a problem due to a variety of factors,

Seeing a serious need to institute corrective practices in order to destroy institutional rot and keep the working people of Sarovia safe and free in their own guild,

Hereby repeals the Declaratory Act 2023 in favor of this new Act, which updates and strengthens the procedures.

Banishment Readiness Condition

2. It is clear that neither the Imperial Armed Forces nor the Imperial Constabulary are enforcing the *Banishment Readiness Condition* system, or BACON. It is necessary, therefore, to reiterate the nature of this system and expand on it. So, it will consist of:

- a. **BACON 1:** People with this classification are top-level security threats to Sarovia and the Sarovian Government should make all efforts to ensure they are not allowed in and that no Sarovians associate with them for their own safety. This level is also called the “Blacklist”.
- b. **BACON 2:** People with this classification have been banned from Sarovia by the Judicial System, but can be brought back through a Court ruling.
- c. **BACON 3:** People with this classification have been removed from the Imperial Armed Forces or the Civil Service due to inappropriate behavior, but have not been banned from Sarovia by the Judicial System.

The Imperial Parliament, in accordance with these changes, once again orders the Imperial Constabulary to maintain a list of banned people, or at the very least one of the BACON 1 and 2 levels.

Security Throughout the Commonwealth

3. It remains vital to condemn any inconsistencies in security within the Commonwealth. History has shown that even when traitors return to the Commonwealth but not to Sarovia directly, they continue to commit evil acts.

Therefore, the Defense Staff is ordered to ensure that, in all Commonwealth Realms, such as but not limited to the Dominion of Carolusburg, this Act is implemented, both by passing similar legislation in those regions and by using the Imperial Armed Forces in strategic ways.

Policy Regarding Loss of Ranks and Honors

4. The military leadership in the Imperial Armed Forces has informed the Imperial Parliament that there is now a reputation of giving “free ranks”, which means that, people who are removed for inappropriate behavior but return later, or people who are banned by the Judicial System but later have the banishments overturned, are given their ranks and honors back. This needs to stop. So, this is how it will be:

- a. **BACON 1:** People with this classification are never allowed to return to Sarovia again, so obviously, they lose everything.
- b. **BACON 2:** People with this classification immediately lose their Officer Commission and all medals, even if they return later.
- c. **BACON 3:** People with this classification do not lose anything unless they leave Sarovia. If this happens, they lose their Commission and all medals.
