

CONSTANTINE IX
ROYO Y IMPERAD

A.S. 297

SEPTEMBER, 2022

No.10 of 2022

**An Act relating to the Improvement of Sarovian
Education and the College System**

Assented to on the 12th of September, 2022

SARHOLM, 2022

BE IT ENACTED, by the Office of the Prime Minister of the New Sarovian Empire and Her Colonies and Dominions, with the advice and consent of the Imperial Parliament thereof, as follows:

Purpose

1. I am proposing this act, as I see that there are some problems in our colleges, me as the Director of one of these colleges, KSC, I know exactly what these problems are. This act has the purpose of ending these problems, the Sarovian Colleges are a super important part of the Empire and that's why we must end their problems as soon as possible.

Problems at Hand

2. The problem that is noticed in all colleges is "laziness", with this, bureaucracy is also a problem because things are too slow, this has the side effect of encouraging laziness and all these problems affects the activity and success of the colleges.

Kiev Staff College

3. The recent big "laziness" of cadets to do their degree requirements during the week. In addition, it has come to my attention that some people do not make their weekly progress report, which is essential for the Directors to analyze what the cadets are doing and effectively see if they really did something new compared to the previous report. From now on, the Commandant, Directors, and all other officials of the college will be appointed by the Minister of Education, and both the Commandant and Minister of Education will have the ability to grade all KSC exams. Also, the KSC will introduce a system where cadets are kicked if they repeatedly don't post their progress reports. These changes will allow the system to move faster and for the KSC to kick anyone who can't keep up.

Ironwood Military Academy

4. Ironwood is the school with the fewest problems, but it has a problem, which is that there are instructors who do absolutely nothing. All officers and Warrant Officers must join the Ironwood Academy, but exemptions can be given to people who ask to be exempted because they don't have enough time, if the reasoning is legitimate. The Ironwood Academy will be supervised by the Army General Staff and the Minister of Education, cooperatively, and they will make sure that all instructors are prepared well to give sessions. This is pretty self-explanatory, it increases the amount of instructors and also increases overall involvement in the system.

Falkenholm College

5. The Falkenholm College is too inactive, it's full of old members who aren't even in the guild anymore, no one does anything, but I feel like people could become more active there if there was more active leadership. His Imperial Majesty, the Emperor, is very busy, he can't manage the Falkenholm College alone. So, I want to help him. His Imperial Majesty, the Emperor, will be promoted to a new rank, Chancellor of the Falkenholm College (but he can rename it however he wants). He will keep administrative powers there as the formal head of the Falkenholm College. But also, the Minister of Education and the Prime Minister will receive administrative powers (or lesser but similar powers, if necessary) so that they can help His Imperial Majesty, the Emperor. Also, the Minister of Education will be able to appoint any person who has graduated from the college as a Provost to help manage the Falkenholm College, with the same powers as him and the Prime Minister. The Minister can appoint as many Provosts as is necessary. By having more people involved in the leadership, there are more people to guide the Falkenholm College's students, and bring it back to being active.
