- 1. Short Title** This Act shall be known as the *Carolusburg Trade Act* in short.
- 2. Introduction** With a trade system we can hope to bring more interest into the Carodian and Sarovian economies by providing a framework for the transferring of Cronas and Saros across both respective lands, this can help reduce the inflation that is currently plaguing the Carodian and Sarovian economies and encourage more individuals to invest in the resources of each country. This will hopefully encourage civilians from Estos to take up jobs in the West while encouraging those from Ostos to secure their wealth in the motherland. With many skirmishes in Ostos, the demand for supplies such as weapons and food are high.
- 3. Exchange** The exchange ratio for Saros and Cronas shall be 1:100. Exchanges may be done through simple contact with any official(s) empowered to perform the commands. No more than 3,000 Saros can be exchanged for Cronas per individual per month.
- 4. Property Purchases** As property is purchasable in Carolusburg, any Sarovian wishing to buy Carodian property without possessing Carodian citizenship may do so, provided it has the blessing of both countries' governments and that the Sarovian government takes a tax, the amount of which it may determine, as long as it is below 50%.
