- 1. Introduction** This statute is ordered with the purpose of protecting the New Sarovian Empire by selecting Nobles by birth or appointment to rule over Sarovia's many provinces, and allow them to govern His Grace's Landesgrad.
- 2. Vasa Family** The House of Vasa is an ancient house, supposedly descending from an ancient noble, Tristam, who is commonly called Tristam Vasa, who was divinely appointed to rule by Stefan Himself. While Graal later broke up between political entities, the House of Zor, the family of the descendants of Tristam, endured. The House of Zor was later on succeeded by cadet branches after the senior line died off. First came the House of Zoar, then the House of Mako, a cadet branch of that house, and finally the current House of Vasa, a cadet branch of the House of Mako. The first recorded Vasa ruler was Grand Prince Aros of Reuss. His son was Constantine I, who was titular King, but forsook the title, preferring the military title of Colonel. Constantine I turned Reuss into a military state, and renamed it to Sarovia. His grandson, Constantine III, peace be upon him, would start the New Sarovian Empire. This is as we understand it today.
- 3. Nobility and Conscription** All members of the Vasa Family will be elevated to a nobility status and given a province to oversee and watch over. Every day they will hold events inside their province, and will be responsible for drafting citizens during the Conscription Act.
